The terminal app

Dani Arribas-Bel & Thomas De Graaff

September 5, 2014

Terminal

Why?

- ▶ Automation/scriptable
- ▶ "Deployment" to larger computers
- ▶ Access to command line tools

Basics Navigating

- ▶ Go to folder (note forward backslash)

```
cd my/folder/
```

- ▶ See contents of folder

```
ls
```

- ▶ Where am I?

```
pwd
```

- ▶ Go to home folder

```
cd ~/
```

Basics commands

- Create empty file

```
touch newfile
```

- Tab-completion
- See manual (not working for windows' git bash yet)

```
man ls
```

- See contents of file

```
cat file
```
